### About This Game

MineFight is a 2D fighting game. Inspired by the universe of Minecraft. You control a character whose main weapon is a bow. Playable with joystick and keyboard.

The gameplay is aggressive and fast, you need to combine shifting and aiming to overcome your enemies. You will soon learn how to use your bow and the physics of your arrows. To spice up all that special arrows are picked up as well as different sadistic traps.

The game features 12 characters inspired by 12 French Minecraft Youtubers. Owning each their skins and a special individual power to each.

The special powers will allow you to reverse the situation, but before you can activate it you will have to recover an orb on the map. Other experience orbs will serve you for arrows and traps. So move around more efficiently and quickly. But do not die.

Playable only in Local Multiplayer 2 with a keyboard and a controller!
