My Label – My Reflection

A reflection of my style and creativity!

The My Label software makes your dream of getting a good fit when sewing garments a reality. Choose from 20 built in patterns, customize with fabric choices, button, embroidery and stitch choices and fit your garment on your 3D Mannequin that conforms to your own personal body measurements. Print your pattern in the comfort of your own home, cut your fabric and sew! 3D animation lets you view your patterns with both selected fabric and embellishments. Your My Label wardrobe is sure to reflect uniquely you.

Basic Patterns: You can individualize all basic patterns according to your personal measurements and ideas.

3D View

Input your measurements and the 3D model morphs to your measurements to give you a true reflection of how each style will fit on your body.

Fabric and Embellishment Choices

Display your virtual styles more realistically with the extensive fabric index that is built into My Label. You can even scan and import your own fabrics into the software. Embellish your style the way you want with your choice of buttons, embroidery or machine stitches to help visualize the final outcome.

Help Menu

Turn your creative ideas into reality and feel confident with the help of on-screen sewing, fabric, style, embroidery, measuring and fit consultants as well as complete step by step sewing instructions.

Easy to Use

My Label software is easy to use with a familiar user interface and thorough Help Manual. Your patterns can be printed on your home computer or at a copy shop.
